

Cookie Policy on www.devodier.com

What are cookies?

Cookies are small text strings that the websites visited by the user send to their device (usually to the browser), where they are stored and relayed once the user visits the website again. During the navigation of a website, the user can also receive cookies from other websites or Web servers (so-called "third-party") on which some elements on the visited website might be (such as images, maps, sounds, or specific links to web pages on other domains).

Cookies, usually found in users' browsers in very large number and sometimes very persistent, are used for different purposes: computer authentication processes, session monitoring, storing information about specific configurations on users who access the server, etc.

Cookies do not record any personal information about users and any identifiable data obtained will not be stored. If you want to disable the use of cookies, you must customise the settings on your computer, choosing to delete all cookies or to activate a warning message when cookies are stored. To proceed without changes to the cookies implementation, simply continue browsing.

See AboutCookies.org for further information on cookies and how they affect your browsing experience.

What Are the Main Type of Cookies?

In this respect, and for the purposes of this Regulation, there are different types of cookies:

1. Technical Cookies

Those cookies are necessary to browse the website and fully use its features. By continuing to browse the website www.devodier.com you are agreeing that we may place cookies on your device.

2. Performance cookies

Performance cookies collect information about how you use a website (e.g., which pages are visited most and if the user receives any error messages from web pages). These cookies do not collect any information that could identify a user. All information collected through cookies is aggregated and therefore anonymous. They are only used to improving how a website works.

By continuing to browse the website www.devodier.com you are agreeing that we may place cookies on your device.

3. Functionality Cookies

Functionality cookies allow the website to remember choices made by the user (such as name, language or region of origin) and to provide customised advanced features. These cookies can also be used to remember changes made to text size, fonts and other parts of Web pages that can be customised. They can also be used to provide services you have required, such as watching a video or commenting on a blog. The information collected from these cookies can be turned into anonymous information

and will not be able to control your browsing activity on other websites. By continuing to browse the website www.devodier.com you are agreeing that we may place cookies on your device.

How to Manage Cookies on your PC

There are several ways to manage cookies and other tracking technologies. By changing your browser settings you can accept or refuse cookies or decide to receive a warning message before accepting a cookie from the Websites you are visiting. If you block all cookies, you may not be able to use some interactive features on the website. If you use different computers in different locations, you will need to ensure that each browser is adjusted to suit your preferences.

You can delete all cookies in the cookies folder of your browser. Different browsers offer differing ways to configure settings. Click on one of the following links to get specific information:

- [Microsoft Windows Explorer](#)
- [Google Chrome](#)
- [Mozilla Firefox](#)
- [Apple Safari](#)

If you do not use any of the browsers listed above, select "cookies" in the related section of the guide to find out where your cookies folder is located.

Google Analytics

The website www.devodier.com uses Google Analytics, a web analytics service provided by Google, Inc. Google Analytics uses cookies, small files of text stored on your browser to help the Website understand how the user browse our website. The information generated by the cookies about your use of the website will be sent to and stored by Google on United States servers. Google will use this information to evaluate your use of the Website, filling in reports on website activity for its operators and to provide other services relating to website activity and internet usage. Google may also transfer this information to third-parties if legally required or if such third-parties process the information on Google's behalf. Google will not associate your IP address with any other data held by Google. You may refuse the use of cookies by selecting the appropriate settings on your browser, however, please note that if you do so, you may not be able to use the full functionality of this Website. By using our website you consent to the processing of your data by Google in the manner and for the purposes set out above.
